### 6. General Business

The following items a. and b. were put forward prior to the meeting and prior notice provided to members for consideration. Items c. and d. were raised during the meeting without prior notice to the members.

a. That the LSF Executive ask for bids from States/clubs to run the team selection trial for the 2022 F3J World Championships, noting that the Open Thermal event at the 2021 Jerilderie Annual Tournament could be the trial.

Moved for acceptance by G. Carter. Sec D. Haskell Carried by show of hands

b. That the format for the June 2021 Jerilderie Annual Tournament be Open Thermal on Friday, and F5J on Saturday, Sunday and Monday. F3K to be flown during lunch breaks on Saturday and Sunday.

Moved for acceptance Mike O'Reilly, Sec G. Carter Carried by majority show of hands.

c. Carl Strautins raised several matters.

i. Making the Wentworth competition a 'substitute' for the Jerilderie competition for 2020 only. If this happened, the question arose about what trophies to award. Would there be an Open Thermal trophy AND an F5J trophy, or just a LSF Grand Champion trophy? If just a LSF Grand Champion trophy, how would this be decided?

ii. The possibility of awarding the LSF Grand Champion trophy to the winner of the F3J Team Trial.

After robust discussion Gerry ruled that the introduction of major proposals such as these was contrary to the guidelines issued for the running of this AGM via Zoom and could not be decided at the meeting. However, the Committee has taken note of the ideas raised and will decide how to proceed after due consideration.

d. Alan Mayhew's raised a suggestion for consideration by the committee to include an 'entry level' comp based around 2 metre electric launch models. Ladislav also added to that by informing us that these models could be bought for around \$300. General agreement as a good idea to encourage new participants. This may be explored further by the new committee.

Prior to the conclusion of the meeting Mike O'Reilly thanked Gerry Carter as outgoing President and the 19/20 committee for the hard work carried out in very difficult and changing times.

Carl Strautins requested that the recording of the meeting be deleted – Gerry confirmed that this would be done and Daniel Haskell hereby confirms that minutes have been prepared based on notes taken contemporaneously during the meeting and immediate recollections.

### PRESIDENT'S REPORT to AGM

### LSF Support for all Glider Classes

The RC Glider scene is rapidly changing from one where winch launched gliders predominate to one where electric launched gliders are taking over as they grow in popularity. There is a new electric launch F5K class emerging that will be similar to F3K and also have elements of F5J. You might say that if one thing is constant, it is change.

The LSF supports all glider activity, including electric launch (F5J). In line with this, for the past few years the LSF has included an electric launch glider competition as part of the annual Tournament at Jerilderie. It was expected that the inclusion of electric launch would continue this year as in the past. However, the COVID-19 situation forced the cancellation of this year's LSF events. These were to be the scale glider event over Easter and the annual Tournament in June.

I hope that by next year the COVID-19 situation will be largely behind us and we can come together to fly and compete again. There is a chance that next year's tournament will be F5J with a winch launch event on the preceding Friday. DLG will most likely be flown as usual. Perhaps in later years we will also see F5K at Jerilderie.

### LSF Survey

We had a good, but not great, response to the survey. Thank you to all those who submitted their opinions and to Dan Haskell for consolidating the submissions. The survey gave guidance to the Committee for the way ahead and clearly some things need to change. This will be given more attention as we plan and prepare for 2021.

### **Team Trials**

In June 2019, at Jerilderie, we selected the team for the F3J (thermal glider) WC. Early this year, in WA, the team for the F3F (slope racing) WC was selected. A team trial for F3B (multi-task soaring) was planned and approved but this has been cancelled. A further team trial for F3K (discus launch gliders) was due to be held this year but will not go ahead. Unfortunately, all of these WC events have been cancelled for 2020 because of COVID-19. What will happen in 2021 is yet to be decided.

### Safety

There was an incident where a glider crashed into a house roof right at the end of last year's tournament. The glider wings had fluttered during launch resulting in some loss of control. Only limited control remained. To my knowledge this is the first and only incident involving property damage in the town in the entire history of the tournament. The response was not handled well but fortunately the homeowners were able to be satisfied thanks to the efforts of the MAAA Secretary.

Your Committee has decided on a procedure to avoid a repeat of this kind of incident. In short, it means that where a pilot loses full control of his glider and it is heading towards the town, whatever control that remains must be used to get the glider on the ground before it leaves the racecourse precinct. The reality is that the glider is going to crash. The only choice

is whether that crash happens within the racecourse or within the town. The obvious choice is to crash within the racecourse.

### Looking ahead

Planning for 2021 is going ahead. The intention is to run the scale glider event at Easter 2021. For the Tournament in June 2021, the probability is that F5J (electric launch) will be the main event and winch launch will be a preliminary event held on the Friday before the Queens Birthday weekend. We will also run a small F3K event during breaks.

But before that time, there is the annual event in October 2020 at Wentworth to consider. A flyer is attached to this email. The format has a lot going for it for both winch and electric pilots. Please support this event if you can.

The LSF Soaring Achievement program continues to attract a small following, particularly since the introduction of a specific program for electric launch gliders.

The 'time off' that we are currently forced to endure is a great time to do some flying focused on attaining a higher level in the LSF Soaring Achievement program. I intend to progress to Level 3. I hope to see Level activity greatly increase in the year ahead.

The current Committee is standing for re-election in June. This gives good continuity to the organisation. The LSF finances are in good shape with around \$10,000 in the bank.

## REGISTRAR'S REPORT FOR AGM ON SUNDAY JUNE 7, 2020 at 7:00pm AEST

Hi guys:

In these crucial times that we live in, there was very little activity on the front of handling of level forms

I have received emails from Tom and for some reason I was in anticipation of more work coming, but that didn't happen and so far I have sent to Wally 5 forms for achieved levels from 4 Pilots.

That means we had 3 pilots achieving Level 1 and one pilot with level 2 and level 3

On the number of members that we have this is most likely lowest activity in long time.

I hope that our airfields will opened soon and we will have sky's for our pilots.

Best regards Ladislav
